Dates	Created on 10/29/2019 14:04:19 by User 10 Updated on 12/14/2019 21:19:30 by User 10

Test Script

1	**Step**
	Navigate to the given project's "Project settings -> Versions" page.
	Test Data
	https://jira.codecool.codecanvas.hu/plugins/servlet/project-config/PP5/administer-versions?status=unreleased
	Expected Result
	Page appears which shows the versions belong to the given project with a "Releases" header text.
2	**Step**
	Create new version by fill the required fields and click on Add button.
	Test Data

	name = 4.1 description = test version
	Expected Result
	A new version (**4.1, test version**) appears on top of the version list.
3	**Step**
	On the left sidebar click on "Glass Documentation" button
	Test Data
	Expected Result
	Glass Documentation screen of the given project appears
4	**Step**
	On the page, click on "Versions".
	Test Data
	Expected Result
	User should see the newly created version (**4.1, test version**) in the version list.
5	**Step**
	Navigate back to the given project's "Project settings -> Versions" page.
	Test Data
	https://jira.codecool.codecanvas.hu/plugins/servlet/project-config/PP5/administer-versions?status=unreleased
	Expected Result
	Page appears which shows the versions belong to the given project with a "Releases" header text.
6	**Step**
	On the version list, select the newly created version (**4.1, test version**) from top of the version table, and delete it by using the "..." button and select "Delete" then confirm delete in the popup modal.
	Test Data
	Expected Result
	New version is deleted, it should disappear from version table.
7	**Step**
	Navigate to the version's Glass Documentation page.
	Test Data
	https://jira.codecool.codecanvas.hu/projects/PP5?selectedItem=com.codecanvas.glass:glass
	Expected Result
	Glass Documentation screen of the given project appears

8	**Step**
	On the page, click on "Versions".
	Test Data
	Expected Result
	The deleted version (**4.1, test version**) shouldn't be seen in Glass Documentation's version table too.
